

Final Remarks

Should the Examiner have any further questions or concerns the Examiner wishes to address by Examiner's amendment by telephone or otherwise, or should the Examiner have suggestions to more clearly define the subject matter of the claims to more clearly define the patentable subject matter, the Applicant's attorney would be most receptive to such.

Applicant's attorney also wishes to thank the Examiner for the professional handling of this matter throughout prosecution.

Respectfully submitted,

**REMARKS**

This amendment is being **RE-FAXED** a second time to the Examiner.

It was first faxed on March 11, 2004.

A copy of the first fax, and of the completed receipt is attached.

The Patent Office was apparently having fax problems during the period of time of the first fax and it was not forwarded to the Examiner through no fault of applicant.

Sincerely

Donn Harms
